What is a 40ft container?

40ft containers are the largest shipping containers that we offer for sale. We have a range of new (one-trip) 40ft containers and used /second hand containers available for sale. We also sell 40ft high cubes, tunnels, flat rack, open top and open-sided containers. Buy online or contact our sales team for advice.

What is a 40ft flat rack container?

The 40ft Flat Rack containers are used to transport oversized cargo that does not fit into a regular shipping container. This shipping container is a container without sidewalls or a roof. The cargo is fixed and lashed on the flat racks with belts and chains to ensure safe transit. The Flat Rack container has collapsible walls.

Do 40ft flat rack shipping containers have a roof?

With no sides and roof, you can easily load from the top or sides. All our 40ft flat rack shipping containers for sale are quality-tested. Without a metallic roof and wall to worry about, you can load cargo wider or taller than the actual dimensions of the container. Buy 40ft flat rack containers for large equipment, trucks, and machines.

What is a 45 foot flat rack container?

45-foot flat rack containers are extremely rare, and very few companies like Pelican Containers supply them. These are used to carry oversized cargo and can be stacked when not in use. These high cube containers have side shutter doors for easy loading and offloading. The cargo can be easily sorted in this type of container.
