Are shipping containers good for indoor farming?

Size: Shipping containers are a good size for indoor farming applications. They are wide enough to allow a central walking path with growing areas on each side that are at arm's length front to back.

Does FreshBox Farms use shipping containers?

FreshBox Farms uses shipping containers for their growing areas, but several of them are housed together in a warehouse instead of being freestanding. They have the scale to distribute produce to dozens of stores within 150 miles of their headquarters.

What is a container farm & how does it work?

The mobility and durability allow container farms to be deployed as temporary or semi-permanent installations and in harsh climates. Bonbio practices circular farming, meaning that food waste is used, indirectly, to grow new food. Specifically, recycled food waste is used to produce biogas.

Should you buy a used container farm?

Being able to immediately produce crops profitably will help immensely with a container farm's financial viability. While you may be able to find a used container farm, the market is small enough that most people end up buying new.

Shipping containers can be used to store a wide range of farm equipment, tools, and supplies. They are weather-resistant and can protect items from the elements.
