Who is puredrive energy?

In 2015, Mark designed, engineered, and installed the UK's first-ever home battery system in his own home - a defining moment that laid the foundation for what was to come. Fast forward to 2016, Mark founded Puredrive Energy with a team of just four employees, driven by a mission to deliver high-quality, reliable home energy storage solutions.

What's new at puredrive?

While we continue to support existing Puredrive customers, our focus has shifted exclusively to providing new solar and battery storage solutions under the Duracell Energy brand.

What is a puredrive battery?

Puredrive batteries use the latest smart battery technology to provide homeowners with complete energy independence. Helping you reduce your imported energy, and also providing energy security in the event of grid failure. During power cuts, PureStorage gives you the option to power your critical circuits through your storage of renewable energy.

Why do I need a puredrive solar battery?

Including a Puredrive solar battery as part of your solar system will allow you to store excess solar energy generated by your solar panels. Helping to further reduce your reliance on an energy supplier to increase potential savings and shrink your carbon footprint.

Puredrive Energy Ltd is a Renewable Energy Semiconductor Manufacturing, Electronics, and Alternative Energy Equipment company located in UK with \$4 million in revenue and 59 employees.
