Le développeur de projets d"énergies renouvelables en Afrique subsaharienne, Africa REN, a annoncé dans un communiqué du 16 juillet le démarrage de la construction de Walo ...

Senegal's solar capacity grew 300% between 2018-2023, but here's the catch - sunlight isn't 24/7. Our containerized systems act like "energy batteries on wheels," storing excess solar power for night use ...

Construction of the battery energy storage system is expected to commence in early 2024 at the Tob& #232;ne substation in Thies and is expected to become operational in 2025.

Senegal and sustainable infrastructure developer Africa REN have commissioned the Walo Storage facility in Bokhol, marking the first grid-connected solar-plus-battery installation of its ...

The lithium-ion battery energy storage unit is the first battery-storage project in West Africa dedicated to frequency regulation and is designed to stabilize Senegal's grid and reduce blackouts. [pdf]

Combining photovoltaic solar with a storage system is a unique solution to meet the current and future needs of the grid. In order to complement and intensify our local impact, Walo Storage is committed ...

This statement highlights the significance of Walo Storage in Senegal's broader energy strategy and underscores the potential for the facility to drive meaningful change in the country's ...

Senegal has officially inaugurated the "Walo Storage" plant in Bokhol (Saint-Louis Region) on January 22, 2026. This marks a technological milestone as West Africa's first large-scale ...

Described as a first for West Africa, a solar PV installation with battery storage project dedicated to frequency regulation has been commissioned in Senegal.

Senegal Energy Storage Container 2MW

With the launch of Walo Storage, Senegal's energy sector enters a new era of sustainable solar power and reliability.
