Who is supplying containerized solar power in Sierra Leone?

Photo: Michael Duff - InfraCo PowerGen, through their Sierra Leone project company Off-Grid Power (SL) Ltd\*, has tendered 20 containerized solar systems for implementation in Work Package 2 of the RREP. The German system integrator and EPC Asantys Systems GmbH was selected to supply the containerized solar power assets.

What is power Leone?

Power Leone stands as the cornerstone of Energicity's operations. With solar mini grids established in 30 communities, we bring reliable and sustainable power to over 7,000 customers. Sierra Leone Rural Renewable Energy Project

Does Sierra Leone need off-grid electricity?

As of 2020, Sierra Leone's rural electrification rate stood at a mere 4.8%, making it one of the lowest rates in sub-Saharan Africa. Acknowledging the challenges posed by costly grid expansion, the Government of Sierra Leone (GoSL) has identified off-grid solutions as a viable approach to meet the electricity demands of its rural communities.

What is the largest off-grid solar energy initiative in Sierra Leone?

This milestone project, implemented by Off-Grid Power\* (funded by PIDG company, InfraCo Africa) aimed to provide first-time electricity to 6,657 households & businesses in Sierra Leone, making it the largest off-grid solar energy initiative in the country.

We use cut-edge tools and modern machinery to manufacture premium quality Electrical Panels, LT Distribution Panels, Cable Bus Ducts, Power Generators, and Electrical Transformers in Sierra ...

By providing EDSA, the executing agency on the Sierra Leone side, with power facilities for transformation and distribution that correspond to voltage classes of 33 kV and 11 kV, the aim is to ...

Case study from Sierra Leone - Containerized power asset solutions for solar off-grid mini-grids. Sierra Leone's challenging socio-economic context includes high poverty rates, particularly among children, ...

Home Power & Batteries Back to products portable power stations productportable power stations product portable power stationportable power station...

As part of the Rural Renewable Electrification Project (RREP), Off-Grid Power has successfully implemented Sierra Leone's largest off-grid energy project, providing green electricity to ...

In 2020 Power Leone signed an MOU with the Government of Sierra Leone to construct and operate 40 solar mini-grid sites with 1.4 MW capacity across rural ...

This is the daily reality for many in Sierra Leone, where only 26% of the population has access to electricity. Outdoor power supply systems aren't just conveniences here - they're lifelines bridging the ...

one's generation capacity significantly. The power generated will make substantial improvements in the lives and livelihoods of Sierra Leoneans - allowing households to access power for the first time,

In 2020 Power Leone signed an MOU with the Government of Sierra Leone to construct and operate 40 solar mini-grid sites with 1.4 MW capacity across rural Sierra Leone.

Sierra Leone's power generation is primarily derived from two sources - the oil fired Kingtom Power Station and the Bumbuna hydro-electric power plant located on the Seli river in the Tonkolili district.

Sierra Leone also has significant renewable energy potential, including over 1,000 MW in hydropower, 240 MW in solar capacity, and untapped biomass resources from agricultural waste.
