-----  
What happened to the bids for ground-mounted solar photovoltaic (PV) installations?

The Bundesnetzagentur has today published details of the successful bids in the auctions for ground-mounted solar photovoltaic (PV) installations that closed for bids on 1 July 2024.

Why were some solar bids disqualified?

The rules introduced by Solar Package I on increasing maximum output power to 50 MW and to a separate maximum bid price for special solar installations were not applied in this bidding round as these fall under the reservation on the granting of authorisations under state aid rules. This was the reason for several bids being disqualified.

What is a solar power purchase agreement (PPA)?

A solar power purchase agreement (PPA) is a financial contract in which a third-party developer owns, operates, and maintains the photovoltaic system, and a customer agrees to purchase the system's electric output from the solar services provider for an agreed-upon price and for a predetermined period.

Where can I find information about the solar auction?

Information on the next steps concerning the auction for first-segment solar installations that ended on 1 July 2024 is available on the Bundesnetzagentur's website at [\(in German\)](#). The updated bidding round statistics will be published shortly.

Below is a sample search result showing the newly published government contracts and bids in renewable, solar and wind energy. These include government RFPs, RFTs, RFIs, RFQs in ...

On January 23, the Mianyang Public Resource Trading Service Center announced the winning bid result for the design and construction general contracting of the Jiangyou High-Tech ...

In August, the company received six bids for each project, and all bids were reviewed and evaluated to ensure compliance with technical and commercial requirements.

Request for Proposals for design, build, and maintenance of a ground mount Solar PV System at Stephenson County Jail, including project permitting, financial analysis, rebate support, system ...

# Solar Photovoltaic Power Generation Bid Winning Announcement

[Minimum 3.136 yuan/W! Announcement of Winning Candidates for the 150MW PV Project EPC in Wuhu, Anhui] On February 14, the announcement of winning candidates for the ...

On September 18, the tender announcement for the design and construction of the 80 MW centralized photovoltaic project in Zhouwangmiao Town, Haining, Zhejiang Province was issued, ...

On July 15, the bidding results of 197.15 MWp N-type (TOPCon) photovoltaic module equipment procurement project of China Power Construction Xiaojinchuan Basin Photovoltaic Base ...
