INTERNATIONAL STANDARD ISO 23237 First2023-11 Glass in building -- Laminated solar photovoltaic glass for use in buildings -- Light transmittance measurement method

For more information on laminated glass and temperature capabilities and performance, refer to the NGA Laminated Glazing Reference Manual and consult with the interlayer manufacturer or supplier.

The glazing requirements for laminated glass used as safety glazing is defined by the Consumer Product Safety Commission (CPSC) 16 CFR 1201, American National Standard ANSI ...

% Reflectance Out - percentage of solar energy directly reflected from the glass back outdoors. % Absorptance - percentage of solar energy absorbed into the glass (held within the glass, then ...

ISO 2023 - All rights reserved INTERNATIONAL STANDARD ISO 23237:2023(E) Glass in building -- Laminated solar photovoltaic glass for use in buildings -- Light transmittance measurement method

This document specifies a test method of light transmittance for the laminated solar photovoltaic glass for use in building. This document is applicable to flat modules with light transmittance in the visible ...

Improve understanding about glass end-of-life and quality of LCA part D data, quantify glass recovery rates and track end-use outcomes for recycled glass on 1-3 deconstruction projects.

Glass in building -- Laminated solar photovoltaic glass for use in buildings Verre dans la construction -- Verre feuilleté; photovoltaïque pour utilisation dans les bâtiments Reference 18178:2018(E) &#169; ISO 2018
