It's finally happening. The Ivanpah Solar Power Plant, the behemoth of bureaucratic blundering and incinerated wildlife, is circling the drain. Once celebrated as a game-changer for ...

Headlines have been circulating major news outlets around the impending closure of the Ivanpah Solar Power Facility, a \$2.2 billion project that began construction in 2010 and has been...

A \$2 billion solar farm project to combat climate change has ended in disaster, after officials were forced to pull the plug on the experiment.

Ivanpah, the concentrated solar power facility in the Mojave Desert, is shutting down in early 2026.

California built a \$2.2 billion solar thermal project in the Mojave Desert in the early 2010s, with 75% of it funded by the Obama administration through loan guarantees. The project, the ...

The landmark Ivanpah solar energy plant along Interstate 15 near the Nevada-California border is past its prime, left in the desert dust as more efficient technology is producing power ...

One of the most ambitious solar projects in history is quietly heading for shutdown after just a decade of operation. The Ivanpah Solar Power Facility in California's Mojave Desert was once...

This shutdown not only marks the end of an era but also highlights the rapid evolution in solar technology and the ongoing quest for more efficient energy solutions.

The landmark Ivanpah solar energy plant along Interstate 15 near ...

For the last decade, drivers on Interstate 15 heading through the Mojave Desert between Los Angeles and Las Vegas have passed by the massive Ivanpah Solar Electric Generating System.

Solar power plant demolished

Ivanpah Solar Facility was designed to provide power via the sun. Then the technology improved and Ivanpah, with its bird killing mirrors, prepared to shut down.
