Did a wind-swept solar panel hit a woman in the head?

A wind-swept solar panel flew off a Brooklyn carport, striking a woman in the head and leaving her dead, city investigators ruled Monday. The large panel, roughly 3-feet by 7-feet, came off its frame at a parking lot in Brighton Beach Sunday morning around 10:30 a.m. and smacked the woman in the head.

Did a solar installation company fail to provide fall protection?

Wrongful death lawsuits from the victim's family. An OSHA investigation in California found that a solar installation company failed to provide fall protection, leading to a worker's death from a 30-foot fall. The employer was fined \$150,000 and faced a wrongful death lawsuit from the worker's family.

What happens if a worker dies in a solar-related accident?

When a worker dies in a solar-related accident, families may pursue legal action. Options include workers' compensation claims or wrongful death settlements, helping cover medical expenses, lost wages, and providing financial stability. Workers' compensation provides benefits to employees injured on the job, regardless of fault.

A wind-swept solar panel flew off a Brooklyn carport, striking a woman in the head and leaving her dead, city investigators ruled Monday.

Electrocuted while replacing a photovoltaic panel. The tragedy occurred yesterday afternoon, around 5 PM, in Paliano, on Via Bosco Castello, near the populous district of S. Maria Pugliano.

A 76-year-old woman died Sunday, Oct. 12, after being struck by a solar panel that blew off a rooftop carport amid powerful nor'easter winds sweeping through New York City, officials said.

Forensic engineers with the city's Department of Buildings continued its investigation on Tuesday. A partial vacate order was issued for the outdoor parking lot at 3000 Ocean Pkwy. This ...

Subsequent judgment on the photovoltaic panel hitting person incident
