How much does a container home cost in Thailand?

For a regular "Bricks and Mortar" home in Thailand the costs will be higher in the range of THB 15,000 - THB 25,000 per square meter WITHOUT any fittings. Container Homes compared to regular built homes in THAILAND do not vary much between them in terms of costs. Materials are the same, labour is similar and foundations are the same.

Who is custom container living?

Founded by Robert Wagoner in 2015, Custom Container Living is dedicated to delivering exceptional, environmentally conscious homes. From solar power integration to innovative water systems, our homes are designed to help you reduce your reliance on external resources and thrive off the grid.

Can a containerized Solar System be installed off-grid?

Off-Grid Installers have the answer with a containerized solar system from 3 kW up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

Are off grid solar containers reliable?

Solar equipment is very reliable but occasionally parts may fail so there is need to monitor and solve any problems. Off Grid Solar container units guarantee security and reliability and allow the engineering team to complete installations in a few days rather than weeks.

We have several "Pre Built" containers for sale which show the prices. If you would like to proceed with a project contact us now or fill in our online estimate and we can let you know the costs involved.
