Does Trinity Solar do its own solar installation?

Although some solar energy companies outsource the installation process to third-party contractors, Trinity Solar handles its own installations. The company has a large team of employees that make up various sectors, including customer support, construction, electrical, and service teams.

What is a typical installation experience with Trinity solar?

A typical installation experience with Trinity Solar would look as follows: The first step of going solar with Trinity is an energy consultation. It consists of submitting your address, phone number and electricity bills. This is followed by a discussion with a sales rep and an analysis of your bills.

Is Trinity a good company?

Trinity was very good along the way about correcting their mistakes and apologizing for their miscommunications. Perfection is probably hard in their business, and they were WAY better with communication and mistakes compared to numerous independent contractors we've dealt with in recent years.

This review isn't based on any hands-on testing or firsthand experience with ordering and installation, so it may not offer a full picture of whether Trinity fits your specific situation.
