An uninterruptible power supply, or UPS, is basically a surge protector, battery, and power inverter -- which turns the battery's stored energy into usable power -- in one.

Replacement battery cartridges (RBC) for Back-UPS, Smart-UPS and Smart-UPS on-line. Power protection and management solutions from home to data center to industrial environments.

How We Picked The Best UpsOur Top PicksThings to Consider in The Best Ups OptionsWhat Is A Ups?How Do I Connect to My Ups?The acronym UPS stands for Uninterruptible Power Supply. Essentially, if the power goes out, your devices shouldn't do. This allows you to shut down and save work or turn devices off safely. As such, UPS devices are rated for power (the amount they can supply) and LCD models will advise how run time they have in them too.
