What is Vienna energy's solar energy expansion programme?

Wien Energie's solar energy expansion programme is based on stakeholder participation and cooperation. Vienna's largest community-funded solar power plant went into operation in Unterlaa in May 2020. Thousands of climate activists from Vienna and the surrounding region bought into the project by purchasing investment packages.

How many photovoltaic plants does Wien Energie have?

The utility company now operates over 260 photovoltaic plants with a total capacity of nearly 60MW and is expanding its position as Austria's leading solar energy provider. "Wien Energie is driving the city's climate protection efforts.

Can a rooftop solar energy plant meet Vienna's climate goals?

Over 80 per cent of Wien Energie's solar energy plants are on the roofs of buildings. However, other sites will also need to be used for photovoltaic expansion in order to achieve Vienna's climate goals. "We won't be able to meet the climate targets with rooftop installations alone.

How can we expand renewables in Vienna?

The key resource for the expansion of renewables in Vienna is our roofs," explains Michael Strebl, CEO of Wien Energie. "With our existing green power plants we can already produce enough solar electricity for the equivalent of 25,000 households - that's more households than in the 1st and 8th districts combined."

The Austrian government has recently introduced legislation to make it easier to install solar panels on balconies. Until now, neighbors could easily object if they felt it would damage the ...

Designed by Otto Wagner in 1899, this Art Nouveau apartment building is famous for its vibrant floral-patterned majolica ceramic tiles covering the facade, showcasing Vienna's penchant for ...

HUGE PHOTOVOLTAIC SYSTEM COMPLETED With the scheduled completion of the new photovoltaic plant on the roof of the Vienna Stadthalle, we are once again a big step closer to our goal of making ...

Austrian materials producer Wienerberger says its carbon-neutral concrete roof-tile factory in Hungary will "set a new standard across Europe". The EUR30m, 7,300-sq-m plant in Hejopapi ...

Vienna s new solar tile factory

CHIKO Solar is a high-quality company specializing in photovoltaic stents and contributes to the development of photovoltaic power plants. It is the world's leading solar mounting manufacturer.

Vienna's largest community-funded solar power plant went into operation in Unterlaa in May 2020. Thousands of climate activists from Vienna and the surrounding region bought into the project by ...

Our state-of-the-art manufacturing facility in Shanghai, China spans 50,000 square meters with advanced automated production lines ensuring consistent quality and rapid delivery. Every product ...

Why the GS4 Ground Solar Mounting System is Revolutionizing Broad New Energy when most people think about solar energy, they imagine shiny panels soaking up sunlight.

We promise you to respond within 24 hours. For technical enquiries use our " INFORMATION FORM ". For commercial information use our " GET A QUOTE ". For any other information or if you are ...

Together with colleagues here in Vienna and in our markets, we are creating the necessary framework conditions to successfully expand the solar power business. I was also ...
